To whom it may concern,

Re: Employment opportunities within the province of British Columbia

As a teacher candidate approaching graduation from the Bachelor of Education program at Thompson Rivers University and I am beyond excited to start my career as an elementary school teacher in the Central Okanagan district. I bring the following professional qualities and skills to the classroom:

- Effective use of Universal Design for Learning and Differentiated Instruction
- Dedication to creating an inclusive and safe classroom culture
- Cultural competency and humility, through a commitment to reconciliation
- Experience working with diverse populations
- Facilitates behaviour management through a developmental lens

I look forward to stepping into my teaching career in the British Columbia region and contributing my skills and knowledge to the teaching profession.

Sincerely,

Katie Ellis
